MORE NORWEGIAN MERCHANT SHIPS SUNK

Including 8,000 Ton Steamship Soda—Norwegian Press Denounce Action of Germany.

(Special to The Herald)
London, Oct. 28.—A dispatch to the Post from Christiania states that German submarines have sunk nine more Norwegian merchant ships during the past 24 hours, among the number being the 8,000 ton steamer Soda. Practically the whole press of the country back up the attitude of the government against the submarine warfare being waged by Germany. One paper declares that the sinking of the Norwegian ships and loss of life will make bad blood between the two countries.

REFUSES TO REMOVE THE BLACKLIST

British Government Replies to American Protest Against Discrimination.

Washington, Oct. 28.—The state department received by mail today from the American ambassador at London, the British reply to the American protest on the blacklist of American firms. The British government refuses to remove the black list in principle, but agrees to remove certain American firms from the list. It is not expected that the state department will make public the full text of the reply before several days.

THIRTY YEARS AGO

Under the heading "Thirty Years Ago," the Hildebrand Journal prints the following:
"Moses E. Lowell of Saco and Mrs. Abbie A. Greenough, until recently, in the millinery business on Main street, this city, were united in marriage at Portsmouth yesterday."

SUBMARINE WARFARE WILL BE INCREASED

Supporters of Ruthless Submarine Warfare Win New Adherents to Their Drastic Plans of Operations

(Special to The Herald)
Zurich, Oct. 28.—Supporters of a ruthless submarine warfare have won over Field-Marshal Hindenburg, chief of staff and the Chancellor. Both of the officials have been opposed to drastic submarine operations and a dispatch reads: "German submarine warfare will be greatly increased with the sanction of the Chief of Staff and the Chancellor. German newspapers publish dispatches of the sinking of twelve Norwegian vessels in the Arctic ocean because they were carrying contraband goods. It is declared by the German press that the Norwegian government cannot suppress submarine warfare by the stroke of the pen."

GERMANS CLAIM MANY BRITISH SHIPS SUNK

In Their Raid in English Channel on Thursday Night Last.

Berlin, Oct. 28.—At least eleven outposts steamers and four or five destroyers or torpedo boats were sunk or damaged by a German torpedo boat squadron Thursday night in the English Channel, between Folkestone and Boulogne, according to an official communication issued here. The German torpedo flotilla returned safely to its base without any loss. The communication says:
"Parts of our torpedo forces moved from a German bay Thursday night through the Straits of Dover and Calais to the line of Folkestone-Boulogne in the English Channel."
"According to the report of Commander Mithelson, at least eleven

outpost steamers and two or three destroyers or torpedo boats were sunk, partially or totally, near hostile ports. Some members of the crews who were saved were captured."
"Several other guarding vessels and at least two destroyers were heavily damaged by torpedoes and artillery fire. Also the English post steamer Queen was sunk south of Folkestone, the crew having time to leave the ship."
"In the Channel near the Farns Lightship there was a strikingly active traffic of hospital ships."
"Our torpedo boats safely returned to German waters without any loss."

ATTEMPT TO KILL KAISER

(Special to The Herald)
Paris, Oct. 28.—A dispatch received here today states that an Allied aviator dropped a bomb on a train which was carrying the Kaiser. The engineer was killed, but no further particulars were given.

RUSE FOR THE ESCAPE OF OCEAN RAIDERS

Navy Men Suspect This Purpose Behind German Channel Attack.

Washington, Oct. 28.—United States naval officers manifested keen interest yesterday in the battle between British and German torpedo boat destroyers Thursday night in the English Channel.
"It was a daring raid," said a high ranking officer. "The real purpose of the German Admiralty in attempting so spectacular a move is not apparent. If the design was to cut temporarily the British transport line to France, the action doubtless was successful."
"The probability is that every German officer and man went into action fully prepared not to return home, although the move appears to have been well planned and equally well executed. The only time German naval commanders could hope to make such an attack in the narrow English Channel, of course, was under cover of darkness."
"That they got away with the loss of two out of the reported eight destroyers is surprising. It is even more surprising that the British Admiralty, with its hundreds of destroyers, fast light cruisers and other speedy craft should have been taken by surprise, as seems to have been the case."
"It will cause no surprise here if one or more German commerce raiders turn up somewhere in the Atlantic following the Channel engagement. Many officers feel that it probably was a blind to cover the escape of one or more speedy raiders from the North Sea around Scotland."

HAVERHILL OFFICIALS ARE NOT GUILTY

Such Is Verdict Reached at Salem in the Leyden Riot Case.

(Special to The Herald)
Salem, Mass., Oct. 28.—Mayor Albert L. Bartlett of Haverhill was found not guilty on the first count and the jury disagreed on the second count in the Haverhill riot case tried in the superior court in this city, when they were called in court this morning. Alderman Charles Hoyt was discharged on both counts and the jury disagreed on the verdicts against Albert E. Stickney, Christopher Cook and Roswell L. Woods. The jury was held for further consideration when court adjourned.

FRENCH TROOPS MAKE CAPTURE IN NIGHT BATTLE

By This Operation They Creep Nearer Their Objective Point.

(Special to The Herald)
Paris, Oct. 28.—Battling beneath the glare of a night cannonade, French troops on the Verdun front captured a fortified quarry, northeast of Fort Donnauville. By this operation the French crept nearer to their objective point, Fort Vaux. The attack was made with hand grenades and was brilliantly executed.

DEMOCRATS CELEBRATE WILSON DAY

Shadow Lawn, Long Branch, N. J., Oct. 28.—Democrats in every city and town in the U. S. are today celebrating Wilson Day, with one exception, Shadow Lawn, which is celebrating New York Day out of respect for the 10,000 men and women who are making their pilgrimage to Gotham. Everywhere where a quorum, and in the large cities to each gathering of 1000, there will be read by a prominent Democratic citizen, a proclamation from the President of the U. S. to address every Democrat in the country on the same day, and in most instances at the same hour.

CONQUEST OF ROUMANIA IS UNCHECKED

Reported That the City of Campolung, 25 Miles Inside of the Roumania Boundary, Has Been Captured

(Special to The Herald)
Although the Allies are attacking vigorously on three fronts the German conquest of Roumania continues unchecked as most of the obstacles which have been holding up their progress have been removed. The Austro-German forces are continuing their drive against the Roumanians without any let-up. It was unofficially announced this afternoon that the Roumanian city of Campolung had been captured. This city is 25 miles inside the Roumanian boundary on the edge of the Roumanian Plain.
If this report is true the German forces under von Falkenhayn are in a position to strike at the very heart of Roumania. All the Russo-Roumanian resistance in Dobruja has been completely broken by the von Mackensen forces and they are continuing the pursuit of the Russo-Roumanian soldiers. The war office announced that they have taken over 500 more prisoners in the past 24 hours.
At Verdun and in the fighting on the Somme the French have launched fresh attacks against the Austro-Germans. A new battle has developed and four new assaults by the British and French are now under way. The Russians on the east front have launched new assaults against their enemies but advice from Berlin states that they have all been repulsed.
At three points in Macedonia the Serbians made further attacks in their efforts to break the German-Bulgarian lines.
The Russian war office makes no mention of the new offensive but admits the loss of two mountain heights in the Carpathians where the Germans are fighting to force a separation of the Russian and Roumanian armies.

BOTH PARTIES WELL SUPPLIED WITH FUNDS

Republican National Campaign Fund Reaches \$1,667,757.

New York, Oct. 28.—Contributions to the Republican National Campaign fund have reached the sum of \$1,667,757.29, it was announced today by officials at the headquarters of the National Campaign Committee. The Democratic campaign fund totals \$1,600,283, as announced some days ago.
The report includes all moneys contributed to the committee and received by them up to the close of business on October 23. The contributions came from 22,225 different sources. Cornelius N. Bliss, treasurer of the Republican Campaign Committee, said today: "This is a unique feature of the campaign and it is being recognized as a departure from the old custom. The fund is becoming popularized, and as in 1914 the contributions came from 3000 people, they come this year from 22,226."

Washington, Oct. 28.—The Republican National Committee filed today with the clerk of the House of Representatives a statement showing that their contributions stood at \$1,667,757.29 and came from 22,226 contributors. Harry Payne Whitney was the largest single contributor with \$30,000. The next highest amount was \$25,000 from the New Jersey Republican committee; and from R. T. Crane, Jr., of Chicago, Arthur Curless, James George, S. B. Baker, Clarence H. Mackay, W. B. Allen and Edmund S. Harkness, each gave \$20,000. The name of Charles F. Hughes did not appear on the list filed today. John P. Morgan, Cornelius Vanderbilt and Louis S. Rothschild each contributed \$10,000.

JURY DISAGREES IN MURDER TRIAL

Newark, N. J., Oct. 28.—The jury in the trial of Mrs. Margaret Bentinger, charged with the murder of her husband, reported a disagreement this afternoon. They were discharged. The jurors had been deliberating for 21 hours and had become hopelessly deadlocked. A new trial was set for Nov. 26th.

THREE IMPORTANT MEXICAN TOWNS READY TO SURRENDER

El Paso, Oct. 28.—The important towns of Santa Rosa, Parral and Torreon are ready to surrender to the advancing Villistas, further isolating Chihuahua City. The same advice brought news that Gen. Trevino is fighting desperately, but with the loss

SITUATION IS SERIOUS BUT NOT DANGEROUS

That Now Confronts Roumania, According to Well Known Military Critic.

(Special to The Herald)
Paris, Oct. 28.—"The situation that confronts Roumania is serious, but not dangerous," writes the military critic of The Journal. "The final decision does not lie in the capture of Constantza but in the success of Von Falkenhayn's operations in the Balkans. Von Falkenhayn must be held, if that is not done the result will be disastrous."

REPUBLICANS CLAIM THAT INDIANA IS NOT DOUBTFUL

Indianapolis, Oct. 27.—It is a strange presidential campaign which Indiana is one of the bright Republican spots of the Central West. Indiana is just that today, in the opinion of the open-minded Hoosier political observers who say that if Mr. Hughes cannot carry the state he cannot carry any of its neighbors. Ohio to the east, ready ordinarily to give a Republican candidate whatever he asks, is three as doubtful as the Hoosier state. If reports in each are to be taken at their face value, Michigan to the north, another normal Republican stronghold, is preparing to go Republican again, but by an estimated majority so reduced that the party leaders are commanding the services and the attention of all their orators. And then to the west is Illinois, with its political wisecracks wrestling with the problem of what six hundred thousand new women voters are going to do, some predicting this and some predicting that, but none actually knowing.

These developments in the three adjoining states have resulted in Indiana stepping to one side, a move no one would have expected last summer. But for all of the unexpected changes in the three adjoining states no corresponding could find no material change in Indiana on the third trip to

that state. The few developments that have taken place appear to be favorable to Mr. Hughes. The return of the Progressives is becoming nearer one hundred per cent than in any other state in this section. Since the visit two weeks ago there has been defection among laboring and railroad men from President Wilson to his opponent. The farmers appear to be more solid for Mr. Hughes than they were. Then, too, there has been a heavy drift of Democrats from the President to the Republican nominee.

Hughes by 30,000

All of these developments have made Chairman Will Hays of the Republican State Committee more and more confident of victory. Today for the first time he gave out figures, predicting flatly that Mr. Hughes would carry Indiana by not less than 30,000 majority. To prove that his estimate was conservative he produced the thirty-day house to house poll which gave Mr. Hughes a plurality of 52,000 votes. He also displayed other polls that were as favorable to the Republican nominee. Mr. Hays, however, is not so confident of victory that he is ready to stop work. On the contrary, he and his excellent organization are working day and night and will continue to do so

until the balloting begins. The Republicans hope to give the Democrats a thorough trouncing.

Rev. Paris B. Miller, Solo. Mrs. Oscar Clark, South Berwick Address. "The Nature and Function of the Christian Church."

Rev. Charles Harbutt, of Portland Address. "The Nature and Function of the Christian Ministry."

Rev. J. W. Cummings, Kittery Pt. Hymn 641.

Benediction. Pastor.

Proceeding the exercises in the church a harvest supper was held by the Ladies' Aid at 6 o'clock.

The home of Mr. and Mrs. Oscar Clark was the scene of a happy gathering yesterday afternoon when their son, Sherman Henry Clark, entertained several of his young friends in honor of his eight birthday. After spending the afternoon in games the little guests were invited to the dining room where the table was prettily arranged with Halloween decorations. In the center of the table was a birthday cake with eight lighted candles, each slice of cake containing a favor. At each plate were tiny Halloween placecards and a little box of candy. Ice cream, cake, fancy cookies and candy were served. Little Sherman received many gifts, among which was a watch and chain from two of his little playmates.

FAST AUTO RACERS IN FINAL CONTEST

Resta and Aitken Hold 100-Mile Race at Sheephead Bay Speedway.

New York, Oct. 28.—Throngs of motoring enthusiasts gathered at the Sheephead Bay Speedway this afternoon expecting a speed of about 107 miles an hour when Resta, Aitken and nearly a score of other fearless drivers take the fast two mile oval for the Harkness gold trophy race.

As the distance is only 100 miles much better time is expected than in the Astor cup race and other contests. The track here is the fastest in the country. Experts here say that some laps will be made this afternoon at the rate of 112 miles an hour.

This is the final automobile racing event in the East this season and although Santa Monica remains to days contest takes an added interest because it may decide definitely the American automobile championship for 1916, for which \$10,000 has been hung up.

Resta now has 3200 points for the association championship. Aitken 2,000 and Rickenbacher, 2,210. These three will drive today, together with DePalma who is the favorite. Wilcox, Henderson, Lewis, Calvin, Devlin, Milton, Devigne, Lecain, Klein, Chandler, Adams, Hughes, Vail, Burt, Henning, and Devore.

The field is believed to assure all existing records for 100 miles going by the board this afternoon.

"THIS COUNTRY NOT AT PEACE"

Perkins Charges McCormick With Running Campaign of Deception.

New York, Oct. 28.—The following letter was sent to Vance McCormick, chairman of the Democratic national committee yesterday afternoon by George W. Perkins of the Republican campaign committee:

"My attention has just been called to a statement by you published this morning, in which you viciously attack me in connection with some advertising that is being done in the papers, favoring Mr. Hughes' election.

"You are conducting the Democratic campaign from behind a shield in front of your office, from which is displayed the slogan, 'Peace, Preparedness and Prosperity,' and above this shield are draped a number of American flags. The campaign you are thus conducting is one of downright deception, and a man of your intelligence must know that it is deception, that it is misleading.

"This country is not at peace; it has not been kept out of war; there has been no preparedness, and our prosperity is wholly due to the war in Europe and not at all due to anything that the Democratic party has championed or accomplished.

"The issue of this campaign at the moment is, Can Wilson get away with it? Can he get a sufficient number of voters to believe in your campaign of misrepresentation and deception? If so, he can be elected; if not, he cannot. Personally, I have too much respect for the voters of this country to believe that your candidate can get away with it. I am confident that your appeal to the yellow streak in American citizenship will fail and fall ignominiously, as it ought to. It is enough to make the blood of any patriotic American citizen boil to walk down 120 street and see the American flag flung to the breeze from every window in your office. You people are mighty prompt to display and wave the American flag, but you are mighty tardy in defending and protecting it.

"GEORGE W. PERKINS."

EVEN CROSS, SICK CHILDREN LOVE SYRUP OF FIGS

If feverish, bilious, constipated give fruit laxative at once.

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomachache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the food passes out of the bowels and you have a well and playful child again.

Children love this harmless "fruit laxative," and mothers cannot easily give it, because it never fails to make their little "buddies" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeits sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.

For dyspepsia, our national ailment, use Burdock Blood Bitters. Recommended for strengthening digestion, purifying the blood. At all drug stores, \$1.00 a bottle.

FRENCH FORCES POCKET GERMANS AT FORT VAUX

Paris Reports Assert that French Have Made
Great Gains in the Fighting in
the Verdun Sector

Paris, Oct. 27.—French troops made further progress in the Verdun region, advancing west and south of the fortress of Vaux, according to the official announcement issued this afternoon by the French War Department. One hundred Germans were made prisoner. German artillery, the statement adds, is violently bombarding Chenoy and Fort Douaumont which were captured by the French in their surprise attack Tuesday night.

The statement says: "North of Verdun we carried out during the night some minor operations in the section to the west and south of Fort Vaux we took one hundred prisoners and made some progress during these actions."

Haig Raids German Line.
London, Oct. 27.—British troops raided the German trenches in the section south of the River Aisne, in northern France, says the official statement issued by the British War Department today. On this front a heavy rain fell during the night. The text of the statement follows:
"Rain fell heavily during the night."

Hostile artillery was active against our front south of the Aisne. At one point in that area we successfully inflicted enemy trenches. Otherwise there is nothing to report."

British Beat Germans Off
The communication from British headquarters in France reads:

"After a bombardment the enemy delivered an attack against St. Redoubt. It was driven off with considerable losses, our artillery proving very effective. Forty-one prisoners remained in our hands."

"During the day the enemy artillery was active against our front south of the Aisne and in the neighborhood of Loos and Fouquereville."

"In spite of the unfavorable weather or our aeroplanes yesterday cooperated successfully with our artillery and bombed enemy billets and depots. Three of our machines have not returned."

German Setback at Verdun.
Paris, Oct. 27.—The Germans made four successive violent attacks on the Verdun front against the Douaumont

positions, but all failed, according to the bulletin issued by the War Office last night. The number of prisoners up to date is over 5000. The bulletin says:

"On the Verdun front the day was marked by violent enemy counter-attacks. Four successive times the Germans attacked positions which we regained from them in the Douaumont region. At 8.30 o'clock in the morning and at 2.30 p. m. two attacks directed on the fort and on our front to the east, were shattered by our artillery and infantry fire, despite the intense bombardment with which they were preceded and accompanied."

"At 3.30 o'clock in the afternoon a third and very powerful attack which debouched from the Houdrion wood was taken under the fire of our batteries and machine guns. Four waves of assault were thrown back in disorder and the enemy sustained considerable losses. Isolated elements which succeeded in approaching our first line were made prisoners. The fourth attempt against our trenches to the south of Chateau wood was also completely defeated. Our front has been entirely maintained. The total of prisoners counted up to the present exceeds 5000. To these must be added several hundred wounded picked up by our ambulances."

WEDDING PRESENT BY MEMBERS OF FIRE DEPARTMENT

WESLEY DOWNING PRESENTED
GIFT BY MEMBERS OF HOOK
AND LADDER COMPANY OF
WHICH HE IS A MEMBER.

Wesley Downing of South street was presented with a mahogany rocking chair at his home by the members of Hook and Ladder Co. of the Portsmouth Fire Department, the gift being a wedding present. Mr. Downing, a member of the company, was married in September to Miss Ida Little. The presentation was made at their home, Captain George Chandler of the fire department making the presentation speech. The gift was received by Mr. Downing who thanked his friends for their kindness.

The evening was spent in a social way, several members of the company adding to the enjoyment of the occasion by presenting an impromptu musical program the feature number of which was an original song by Captain Chandler in which he thanked the young ladies who presented him with a bouquet on Market street during the parade of the firemen at the late convention of the firemen in the city.

NEW HAMPSHIRE COLLEGE NOTES

New Hampshire College, Durham, N. H., Oct. 27.—Preceded by a torchlight parade, the torches burning red fire and carried by a hundred cheering students the New Hampshire College Wilson Club had its first rally of the campaign in the gym last night and heard speeches by Senator Hollis, John C. Hutchins, Ralph D. Paine and others.

Joy Harriman, a member of the senior class and president of the club presided and introduced the speakers. Donald Libbey, a junior led the cheering. Including townspeople and students about 300 were present. The speakers were on a circuit and left here after speaking for Newmarket and from there to Dover covering the three towns in the evening.

Senator Hollis declared that he had begun his career as a conservative democrat, but that he is a progressive democrat now, and had come from scolding Bryan to being one of his most ardent admirers. He defended the course of President Wilson in regard to the Adamson bill and declared the Republican party to be split and without an issue.

Mr. Hutchins defended the Wilson Mexican policy especially the recognition of Carranza and described a recent trip of his to that country.

New Hampshire will play one of its two important games of the schedule today, Saturday, October 28th, when it meets the University of Vermont at Dover.

This is the first college game at Dover in 12 years and with a good day we should have 3000 people. The interest is already beginning to be shown by letters asking for reservations for tickets.

The New Hampshire state team will have a new line-up and is in unusually fine condition. The students are going to Dover in a body and will take the Cadet Band. A special train will leave Durham at 1 o'clock and return from Dover at 6.15.

PORTSMOUTH ASSOCIATION TO JOIN STATE

EQUAL SUFFRAGE LEAGUE VOTE
TO ASSIST IN EFFORTS TO
SECURE PASSAGE OF FED-
ERAL AMENDMENT.

The annual meeting of the Portsmouth Equal Suffrage League was held in the Woman's Building, Middle street, on Friday afternoon, Mrs. Mary J. Wood, president of the league, presiding. The principal speaker of the meeting was Mrs. Marion Booth Kelly, who is giving talks on civic questions at the building on the second Thursday of each month. The Portsmouth branch of the league voted to join with the state forces who are working toward the passing of the federal amendment for the enfranchisement of women.

Officers were elected to several of the committees and to represent the Portsmouth league at the annual state convention which will be held at Concord Nov. 9 and 10. The elections resulted as follows:

City Chairman—Miss Sallie Hovey.
Chairman Finance Committee—Mrs. Elizabeth P. Connor.

Publicity Chairman—Dr. M. I. Boger.
Propaganda Chairman—Miss Martha S. Kimball.

Chairman Enrollment committee—Miss Vaughan.

Delegates to the Annual State Convention—Mrs. Edith Pike, Mrs. Warren Mrs. W. O. Sides, Misses Mary S. Heflinger, Martha J. Boger, Edith Brewster, Sallie Hovey and Miss Prescott, Mrs. M. J. Wood, Miss Kimball, state chairman.

In her talk to the members of the league Miss Kelly went into detail about the election, duties and powers of the national officers of the United States, especially the members of both branches of Congress and of the President.

She demonstrated that the electoral college was a custom rather than a necessity as many of her hearers believed. She said that she believed that National Enthusiasm "or Americanism" is fast replacing our old sectional ideas and is leading to a bigger, better and broader America.

Many of the legislative bills were discussed in detail by Miss Kelly and she devoted considerable time to the Adamson Bill. She explained that the short life of the Adamson law, from January to October, 1917, would lead to a nation wide study of the effects of the law, investigations would follow and that likely some remedy for our railroad troubles would result. Her subject was "National Government and Legislation."

ELIOT

Mrs. Terry has returned to her home in Kennebunk after a week's visit with friends in this town.

The foundation of the house being built for Harry Mozart is all finished and as soon as the frame arrives work will be pushed along rapidly.

Mrs. Joseph Vaddox of Portsmouth was a recent visitor of her parents, Mr. and Mrs. J. W. Davis.

Mrs. Albert Wetherbee of Portsmouth was in town recently.

There will be an Old Folks concert at the Congregational church, Wednesday evening, Nov. 5, consisting of old tunes, anthems, and part songs. It will probably be a costume affair.

Miss Sara Dixon of Minneapolis, Minn., is expected to arrive Saturday on a visit to her grandmother, Mrs. Samuel Dixon.

Deaconess Robinson of Portland, Me., is working under Rev. Mr. Graham of the East Ellot Methodist church.

BOXING NOTES

There will be forty rounds of fighting offered to the fans at the Triple A meeting at the Boston Arena next Tuesday evening and on paper it looks as good a little treat as any enthusiast could hope for. The big attraction in the double bill will be the return match between Frankie (Young) Britt and Al Shubert.

In their last battle Britt who got all he knows about the boxing game as a sparring partner for Shubert beat the latter. It was a very hard fight but Britt clearly outpointed him. The last three stanzas however Shubert came very fast and if any of the sessions were in his favor it was these.

Shubert's ability for defeat is that he was so long out of the boxing game that he didn't really get going up to the tenth round. In this he is backed up by the fact for he certainly carried the fight very fast and hard to his former pupil in these sessions. His recent defeat of Kid Williams, the feather-weight champion would indicate that he has got back into his old stride and is apt to turn the tables when he meets Britt next Tuesday evening.

The fans look for a very fast fight between Young Sandow and Frankie Brown. Alec McLean, the veteran manager who at one time looked after the affairs of Jack Johnson has taken Sandow under his wing. Alec declares that Sandow is the best bantam in the country today and points to his two defeats of Pat Moore as proof of this assertion. In Frankie Brown, Sandow will find a tough customer who will carry the fight to him every moment.

"LEAD ME TO IT" NEXT
MONDAY AND TUESDAY

Bob Hill, who will be seen at the Colonial Theatre all next week, has contributed many merry musical plays to the stage of America, but the consensus of opinion is that his present season's output leads them all in point of mirth, melody and wit. It begins to look as if Bob was going to be a never-ending success. Every year, (like old wine) he improves with age. He can only be classed with such comedians as Fred Stone, Joseph C. Cohan, William Collier and George M. Cohan. Bob always produces the best. This year, his "Lead Me to It" production is one of his funniest plays, and the chorus are younger than ever, attired in new and gorgeous gowns. These disciples of the dance are always working to forge ahead, and they always succeed.

"Lead Me to It" is a musical show, full of special features and complicated situations. It has created storms of laughter in every part of the country. Seats are now on sale. Phone 817W. Special feature photoplays before the musical show at both the matinee and evening performances.

A Revel of Pessimism.

From the talks given at a "Conference on Real Preparedness" held recently in Boston one might judge that the gathering was made up of professional pessimists. Very gloomy views of various matters were taken, and if the conference was for preparedness it was evidently a case of preparing for the worst.

One speaker touched on the physical condition of Americans and made it out to be very bad indeed. He said the American does not think for himself and that he is below par physically, in direct contrast to the German soldier. Another speaker declared that most American men and women past the age of forty are suffering from ill health in one form or another, and that "old age diseases" are one of the commonest things in the country today, these appearing in too many cases before the arrival of old age. To illustrate the desperate physical condition of the people he cited the case of 1,000 workmen from a single large manufacturing establishment who were given physical examinations. Fewer than one per cent were found normal, more than 60 per cent showed signs of chronic organic disorders and 90 per cent were so ignorant of their condition that they did not realize that there was anything the matter with them. Of course everybody understands that it is a very dangerous thing to be in such a condition as to lead one to believe himself perfectly well.

And the conference did not confine its attention to physical matters. It declared that two thirds of the families of the country are on the verge of dependency, while the other third are receiving from \$100 to \$300 a year less than is necessary to maintain them properly. Surely this is a land of distress. Not only are there many who do not have enough to eat, but wrong habits of eating are responsible for 600,000 deaths annually.

If all this is true it is high time to prepare, for it is manifest that, as some of the comic pages say, "The worst is yet to come." With all the rest, industrial disturbances show that the country is headed straight toward revolution.

This is a dismal outlook, but, happily, the situation is not so bad as represented. There are many things in the country that are wrong, but the people as a whole are not headed toward starvation, the poorhouse or revolution. The wrongs will be corrected in time, and in the meantime this is and will remain a pretty good country to live in.

Some are beginning to suspect that the plentifulness of money is one cause for the prevalence of high prices for practically all things. If people did not have the money they could not pay such prices and things would have to be cheaper. There have been times when money was scarce and prices were low, but people with good memories do not recall that those conditions were any more comfortable than the present.

In some cities housemaids are reported to be organizing and demanding \$7 a week. Further, they hope to have the organization include the washwomen and scrubwomen, who, they think, should be paid \$2 a day instead of \$1.50. These people are evidently of the opinion that the cost of hired help should correspond more closely to the other costs of living.

The women had an uncomfortable time in Chicago on the occasion of President Wilson's recent visit to that city, but they should cheer up. With both presidential candidates committed to the cause of suffrage there should be better times ahead, though the president alone is not able to give the ballot to women.

Ripe strawberries and raspberries have lately been picked in some of the northern states, while from others snow storms of considerable severity for the time of year have been reported. Our climate is capable of great and sudden variations but on the whole the combination this fall has been very agreeable.

E. E. Rexford, author of the song, "Silver Threads Among the Gold," has passed from earth, but the song will live on. Its author was a writer of verse and prose, but never attained special distinction, and this sweet and simple song will be his most enduring monument.

Are Europeans to be Americanized by the war? It is said that beer and cider are taking the place of wine in Paris. If the change remains permanent American travelers who will swarm the country after the close of the war should feel right at home in the French capital.

EDITORIAL COMMENT

Keeping Us Out of War

(From the Wall Street Journal.)
May it be respectfully pointed out to a President who is said to have "kept us out of war," that an American officer killed in the military occupation of San Domingo is just as dead as if he had offered up his life on the bloody parapets of Verdun? Does war cease to be war when it is waged against an incomparably weaker state, or avoided by cringing dissensions when the adversary is strong enough to take care of himself?

So far from keeping us out of war, Mr. Wilson has blundered into every opportunity of the kind on the peaceful American continent. As for the European conflict, the credit for keeping us out of the war belongs to the British and French diplomats and Kaiser Wilhelm. It was to the interest of all parties to keep us out of that war. Even our chivalrous President did not dare to clasp the bloody hand of Germany though he may have felt himself strong enough to make war on poor-battered Belgium. For the sake of the German-American vote, whatever that may be, he was equally afraid of giving the allies that moral support to which a just cause is entitled.

But Mr. Wilson has twice made war in Mexico, and it makes no difference that his method was as thoroughly inefficient and irresponsible as the rest of his Administration. He is making another war in San Domingo and is no doubt telling himself that it can plausibly be called something else. Mr. Wilson differs with one of his greatest predecessors, who can be imagined to be turning in his grave occasionally in these times. Mr. Wilson believes that a dog may be said to have five legs if you cut its tail a leg. Mr. Lincoln did not believe that; but the uplift of humanity has made long strides since his time, especially in the past four years.

Neither side desired the co-operation of the United States in the great conflict in Europe. Belligerents differing in everything else, were in complete agreement on that point. The reason is obvious. None of them could afford to sacrifice the one remaining great free market which the civilization of our strength on either side might have restricted or even in some measure destroyed. This menace being removed, through an effort of Mr. Wilson, he could vigorously turn the arms of this republic against the negro republic of Haiti. There he had found a foe man worthy of his steel.

The Issues of November

(From the Manchester Mirror.)
Early in the Wilson administration it became apparent that nothing was being accomplished by the anti-trust prosecutions. Disputations of business trusts did not reduce any prices of necessities of life. They made the trust stocks more valuable. It was nothing but transferring money from one pocket to another.

As nothing was being gained and the supreme court having interpreted the law by the rule of reason, the course of the administration was clear. A common sense government would have gone slow on futile and costly litigation, that amounted to no more than drawing chalk lines through the offices of the trusts. Instead the government continued its bitter fight against the big industrial organizations, throwing a chill over all business enterprises.

The railroads, unable to gain any considerable increase of rates, although the cost of operation was rapidly increasing, stopped expansion and cut down to the limit all expenses for new equipment. This paralyzed leading industries.

In the midst of the chaos produced by these shocks to the commercial fabric, the European war came like a godsend to the Wilson administration. A flood of orders poured in, not merely for munitions, but for anything that could be eaten or worn by great armies, and for all kinds of machinery and supplies. It is a feverish, abnormal business, soon to be ended by the close of the war. A bankrupt never made his neighbors permanently prosperous by the folly of his lavish spending.

An enormous volume of exports will stop short the day peace is declared, probably much before that. Then will come a competition such as was never seen before. A hungry man will accept starvation wages. If it means getting an order for American trade or foreign trade that we have had. With Europe's superb technical efficiency and with literally pauper labor it is easy to see the outlook of many

CURRENT OPINION

No Reason for Apprehension That Warring Nations Will Default Obligations.

In so far as a default upon the part of England, France, Russia or Germany on any of their external obligations is concerned I do not believe there is the slightest reason for any apprehension. With hardly an exception the bankers who have made a special study or are in any way familiar with the vast resources of the warring nations unhesitatingly state that not one will become bankrupt, and I think they are right.

Great as has been our export trade, it will yet be greater, and for a year at least we must vastly increase our output of farm and factory products. Every man today has new and larger opportunities.

Upon the banker's great responsibilities I hope he will meet them, and, judging by the events of the past two years, I think we have every warrant to believe that he will. It will require continued labor, more efficiency and greater progressiveness than ever before.

But the reward will surely be the reaching of a zenith of prosperity in the United States that should carry us forward and establish us as one of the dominant factors in international finance for many years to come.—By John H. Mason, President Trust Company Section, American Bankers' Association.

American Industries and the Work-people thereof.

Why is it Not "Boston, Ore" (From the Portland Oregonian news columns.)

P. W. Pettygrove, son of the pioneer for whom Pettygrove street in this city was named and who had a hand in the naming of Portland, is registered at the Portland.

Mr. Pettygrove is a business man of San Francisco and he carries with him wherever he goes the penny his father tossed more than half a century ago to decide whether this city should be known as Boston or Portland. Heads won for the older Mr. Pettygrove, which explains why we do not now live in Boston.

High Cost of Living in Georgia

(From the Omaha Bee, Neb.)
Prosperity has landed in Georgia with a whoop, owing to the steady advance in the cost of living, the state finds it can no longer afford to pay for the keep of the insane who have been confined in its asylums. Therefore, these admitted mental incompetents will be released to their relatives and may or may not be restrained. The action is typical of a Commonwealth in which prisoners may be taken from inside the penitentiary at night, transported half-way across the state and lynched without interference on the part of any officer of the law, and the grand jury afterwards be unable to discover any who are guilty of complicity. In the prime, Democrats of Georgia rewarded the prosecutor in this case with a nomination that means election to the office of governor. It may not be easy to determine where sanity begins and ends in Georgia, but they are enjoying the fruits of Wilson prosperity.

The Muffler on Bryan

(From the Chicago Evening Post, Rep.)
The Democrats have succeeded, almost miraculously, in keeping William Jennings Bryan out of the campaign light during the campaign. If the Nebraska had taken himself to Patagonia or New Guinea, we could scarcely have been less conscious of his presence in the land. This is the more amazing following the conspicuous place thrust upon him by many admirers at the St. Louis convention.

Bryan, who once reveled in publicity, has submitted to occultation. We cannot believe he likes it but he bears his cross patiently, doubtless convinced that for the present it is good politics. Assuredly it is good politics for the President. The Nebraska, after carefully studying the possibilities for a peace campaign, probably concluded the time was not ripe. He bites a better opportunity and contents himself with playing a minor role.

For it must not be thought that the Democrats, however anxious they may be to keep the soft pedal on the man who gave the lip to Dunbar, have failed to use him where his services were likely to be of value. Bryan has made speeches in New Mexico, Arizona, Utah, Wyoming, Montana, North Dakota and Colorado. There he roars freely, preaching pacifism in the interests of the man "who kept his out of war," and keeping open his own communications. It is east of the Mississippi that there is a Democratic embargo on Bryan.

Baker's Valley Forge Lapse

(From the Baltimore American, Rep.)
Not alone Mr. Hughes, but the nation is astounded at the commission made, it is alleged, by Secretary of War Baker between the Americans at Valley Forge and the Mexicans. To institute for a moment a comparison between the Revolutionary heroes under Washington and the murderous gang under Carranza is an offense to decency and to sense, aside from political accuracy.

It is true that Mr. Baker has tried to push-noah away the incident. But it will not do. The patriotic women of the nation have taken it up and call upon the President to remove from office a member of his Cabinet holding the position of Secretary of War who would be guilty of such a treachery of fact.

The national officers of eleven patriotic women's organizations have united in the petition that recites offense of Mr. Baker. Lack of patrio-

idealism and amazing ignorance of history are cited against the man who sought to justify the Mexicans by alleging of the American Revolutionists that he regarded as comparable to the offenses of the Mexicans no historical document having record of such acts as performed by the American patriots.

This matter has assumed nationwide importance and the demand of the women will be backed by Americans who reprobate such reckless statements for partisan advancement.

(From the Portland Oregonian.)
Does Secretary of War Baker mean to say that George Washington was the Villa of the United States or that Villa is the George Washington of Mexico?

BOSTON LETTER

Boston, Oct. 28.—Massachusetts milk dealers are promised no change in the milk transportation rates prior to January 1. This means that the proposed new tariffs, asked by the railroads, will be suspended until the first of the year, pending the public service commission's study of the situation. In arguing before the commission, John Alden, a Boston milk dealer, says the proposed increase in rates would wipe out the business in Massachusetts. If the present rates are maintained, he said, Massachusetts farmers will be encouraged to produce more milk. Mr. Alden expressed the opinion that a freight service for milk could be furnished by the railroads. This view was not held, however, by Frank A. Pirbright, attorney for the New Haven, or by Mr. Charles Pierce, attorney for the Boston and Maine. The new schedule of interstate rates has been forced upon the railroads and the only alternative seems to be to bring the interstate tariffs into conformity with them. Mr. Pirbright said, Robert M. Burnett of Southboro said that the proposed increase in rates for short distances would put the nearby farmer out of business.

How to be a policeman will be taught at Harvard this winter in a new course that will be given under the direction of an expert in the methods of modern police duties. Ambitious students to whom the professions or lines of business do not appeal, may now learn the art of policing under the guidance of the Harvard authorities. The course will lay stress upon the teaching of the many opportunities for service to the community that are open to the well-trained, modern policeman. This move on the part of Harvard has raised the duties of the policeman from a mere job to a fine art. The course was suggested by Mayor Dockwood of Cambridge. The practical side of the course will not be neglected, and considerable proportion of the course will be given to a study of criminology.

Governor Samuel W. McCall will jump into his campaign for re-election again next week and all the speaking engagements the state committee arranged for him. This statement was given but at the clubhouse today to stop exaggerated rumors that were sent out regarding his illness. The governor, it is stated, is still under the physicians' care at his home in Winchester, the result of a cold contracted during an automobile ride from Lawrence in the fog on Tuesday night. He has recovered from his indisposition sufficiently, it was stated, to take part now in the campaign, but his physician declares that he must remain at home for at least today. He will take the sleigh again on Monday.

Of the many letters commending the hospital supplies sent to France, one of the most prized is that received recently by the surgical dressings committee from Dr. Daniel W. Jones, who succeeded Dr. Hugh Cabot as surgeon-in-chief of the Harvard unit at Jefferson Hospital, No. 23, British Expeditionary force. "It would have been a pleasure," wrote Dr. Jones, "if your committee could have seen the very faces of doctors and nurses recently when we ran out of your dressings and for four days were obliged to use corrosive gauze furnished by the British war office. It was in a way serious, as the work was heavy and the extra time required considerable. Nobody who has not seen the wounds of a base hospital like this has any conception of the amount of gauze required for every operation and every dressing. The patients come here daily badly cut to pieces and in order to combat the infection which practically all have, we are obliged to mutilate them still more."

The Abenaki club grounds at Rye continue in one shape and many golfers can be seen on the links every day.

RED CROSS SEALS ARE ATTRACTIVE

New Hampshire Association Starts a State Campaign Fight on Consumption.

The Red Cross Christmas seals for 1916 are especially attractive as the design indicates. Here is a happy picture of old Santa Claus clad in a red-fur-trimmed suit and with good health and vigor, shown by his sturdy attitude and beaming face. On his back is a great sack filled with all the joys of the Christmas season. The Red Cross is stamped on the sack. This picture represents robust health and good will coming to the relief of ill-health and discomfort. It is almost time for the great annual Christmas campaign against the most destructive and costly of American plagues, the white plague of Tuberculosis.

The Red Cross was founded to relieve distress on the battlefield. But as wars seemed to have been done away with, it took up the relief of distress in connection with great disasters, such as floods, earthquakes, fires and epidemics. When it reached Tuberculosis it became aware that this particular problem was big enough for a new organization by itself. The National Association for the Study and Prevention of Tuberculosis was then formed. This association and the National Red Cross are the two most powerful humanitarian organizations in this country. They work hand in hand. The entire Tuberculosis work of the Red Cross has been turned over to the National Association for the Prevention of Tuberculosis. There is such an association in every state in the Union.

The New Hampshire Association organized in Manchester, September 12, is the youngest of these state groups. The president of it is J. Brodie Smith, Manchester; honorary vice-presidents are Henry W. Keyes, Haverhill; Lt. Rev. E. M. Parker, Concord; Mrs. L. M. French, Manchester; vice-presidents are Col. George H. Leighton, Monmouth; Mrs. Jas. W. Remick, Concord; Dr. Herbert L. Smith, Nashua; Mr. A. H. Hale, Manchester; treasurer, Thomas Chalmers, Manchester; executive secretary, and Mrs. A. J. Haffman, Laconia, assistant secretary-treasurer.

The organizer of the New Hampshire association was Mr. C. N. DeForest of New York City, who acted under the auspices of the National Association of the National Red Cross. This association has just received the commission of the National Red Cross to assume charge of the distribution and sale of the Christmas seals for the present year.

It has taken an office in the Dunlap block, rooms 203-210 and has just received from the National Red Cross two million (2,000,000) seals for distribution and sale. The proceeds of these sales are used for the Anti-Tuberculosis campaign and relief campaign in New Hampshire and through out the U. S. Dr. Chalmers who has been asked by the National Association to act as executive secretary and who has been elected to that office is organizing a thoroughgoing and systematic campaign to put New Hampshire in the side of Massachusetts, Rhode Island, Connecticut, and other states in the front rank of Anti-Tuberculosis movement.

NEW YORK POLICEMEN BUILD FLOATING STATION

New York, Oct. 28.—With their own hands New York City's versatile blue coats have built the first floating police station in the world.

The station, formerly a barge, will contain sleeping quarters for the reserves, a large desk room, a lounging cabin and a wireless apparatus. To reach headquarters in emergency, the boat will be the central station for all police boats operating in the East and Harlem rivers. It will be moored at Randall's Island.

**NEWBURYPORT
TO HAVE A NEW
POSTOFFICE****Congressman Gardner Asks
Treasury Department to
Proceed According to
Revised Plans.**

Newburyport, Mass., Oct. 28.—Augustus P. Gardner, who represents this district in congress, today notified the residents of this city that he had recommended to the treasury department that it proceed according to revised plans for a new postoffice here. The original plans called for a two story building with accommodations on the first floor for the post office department and on the second floor for the other federal departments.

The lowest bid was \$20,000 in excess of the available appropriation, which is \$63,000. All bids were rejected.

Now plans for a one story federal building to cost \$63,000 were drawn and a hearing of citizens given by the congressman and Mr. Simon of the supervising architects' department to determine whether or not they would accept the change or endeavor to obtain more money. It was decided to leave the matter with the congressmen. If more money can be secured the original plans will be followed.

**GIVES LAND AT
YORK BEACH FOR
A FIRE STATION**

The York Beach Fire Department will have a new fire station, a modern, up-to-date building that will compare favorably with stations in towns twice the size of York. Through the generosity of the York Harbor & Beach railroad, a lot of land has been given the department on which to erect the building, and the greatest obstacle the firemen have faced has been removed. They will now commence the erection of a new station at once and it will be completed as quickly as possible.

Ever since the fire there the men have been working towards a new station. Several sites were looked at but all but one were rejected on account of being too far away from the business center. But there was a lot just beyond the Noyes grain store, a

corner of the baseball grounds, that was an ideal site, and the department determined to ask the railroad company to donate this land. They took the matter up with the directors and a week ago the officials visited the beach and went over the proposition with the chief of the department and the engineers. Nothing more was learned about the matter until Wednesday evening when word was received that building operations could commence at once.

The new building will be two stories high, the first story of brick. On the first floor will be ample room for the fire fighting apparatus, which at present consists of an automobile chemical truck, a small 40 gallon hand chemical, two hose wagons and a hook and ladder truck.

On the second floor will be a reception and amusement hall. These plans are only tentative, but any changes made will be done only for improvement.

**AMERICAN
AND BRITISH
SHIPBUILDING**

The steel merchant shipbuilding in progress on Sept. 30, 1916, in the principal shipbuilding districts of the United States and of the United Kingdom, according to the Bureau of Navigation, of the Department of Commerce, returns from American shipbuilders (which include ships ordered but not begun) and according to Lloyd's returns from British shipbuilders (covering only ships, construction of which has actually begun), were as follows:

United States—Delaware River district, 90, 419,213 tons; Great Lakes, 69, 216,916 tons; Chesapeake Bay, 41, 213,796 tons; San Francisco Bay, 35, 211,628 tons; Puget Sound and Columbia River, 32, 182,090 tons; all others, 150, 211,497 tons. Total ships, 417; total gross tonnage, 1,454,270.

United Kingdom—Newcastle, 77, 401,926 tons; Glasgow, 74, 319,332 tons; Greenock, 57, 285,280 tons; Belfast, 26, 251,250 tons; Sunderland, 56, 220,004 tons; all others, 179, 281,262 tons. Total ships, 469. Total gross tonnage, 1,789,051.

**WILL BOOM
YORK BEACH****Chamber of Commerce Plans
for Record-Breaking Business in 1917.**

The York Beach Chamber of Commerce is planning to put that resort right on the map. Instead of waiting for people generally to find out the advantages of the beach as a vacation place, the Chamber of Commerce is going to carry on an advertising campaign that will at once create the proper interest and bring the people to them. Also they are going to tidy up the place, provide better business and financial management, preserve their greatest natural advantage, the beach, and stop all objectionable or harmful features connected therewith. In fact, the Chamber intends to take right hold of the summer business proposition and put it on a sound, substantial basis to the benefit of all concerned.

This is only a row of the several things they have started out to accomplish as explained in a circular letter which will be mailed to all the residents and non residents of that section.

The beach has had its fat seasons and its lean ones. Much of its business has come simply because the place is by nature endowed with beauties that cannot be found elsewhere. But there is always a chance to improve upon the natural beauties and make the artificial surroundings harmonize. This part of it, the Chamber feels, has been more or less neglected, and it was to correct this fault that the Chamber was formed.

That it means everything to the future business and prosperity of the resort no one can doubt. Men with the best interests of a place at heart, banded together for a common cause, can do a lot of good, and going at it with a determination not to let anything stand in the way means that results will certainly follow.

A glance at the names of the men and women who form the officers of the new Chamber of Commerce will be proof positive that the beach is alive to its possibilities, and that from now on every other resort will have to hustle to be in the running. The officers are as follows:

President, E. A. Talpey; counselor, E. P. Spinney; treasurer, Frank E. Parsons; secretary, B. F. Chalk; gov-

ernors, E. A. Talpey, L. W. Crockett, F. E. Parsons, J. Frank Young, J. C. Jones, W. J. Simpson, G. K. Lovell, E. H. Ellis, E. P. Spinney, Mrs. Helen O'Donnell, Mrs. Fannie Simpson, Mrs. Mary Truesdell.

Probably one of the first things to be pushed through to completion will be the securing of a new village corporation charter, a petition for which will be presented at the meeting of the state legislature next January. Another matter which the Chamber is vitally interested in is to regulate and supervise the construction and repair of buildings, to the end that fire risk may be brought to a minimum and that no more unsightly buildings be erected, but instead all plans for buildings be drawn with an eye to beauty. A committee will be appointed to see that the sidewalks and streets are kept in good condition, and assist in the police and sanitary supervision of the resort.

It is just such organizations as this that give to towns their best opportunities, and unquestionably the beach is going to profit greatly.

RURAL CARRIER EXAMINATION.

The United States Civil Service Commission has announced an examination for the county of Rockingham, N. H., to be held at Derry, Exeter and Portsmouth, on Nov. 25, 1916, to fill the position of rural carrier at Seabrook, and vacancies that may later occur on rural routes from other post offices in the above-mentioned county. The examination will be open only to male citizens who are actually domiciled in the territory of a postoffice in the county and who meet the other requirements set forth in Form No. 1077. This form and application blanks may be obtained from the offices mentioned above or from the United States Civil Service Commission at Washington, D. C. Applications should be forwarded to the commission at Washington at the earliest practicable date.

**REMOVE EIGHTEEN
BODIES FROM THE
OLD CEMETERY**

Eighteen bodies were recently removed from a private cemetery near the residence of Mrs. Frank Philbrick at Rye, to lots in the Central cemetery. Many of the remains had been resting there for nearly a century and the clothing on some of them was said to be intact, especially that of one man who was interred dressed in a black suit with a black bow tie. The clothing was well preserved and the tie was almost as good as when the body was prepared for burial.

The Mohawk A. C. football team of this city and the second team of the U. S. S. Washington will play at the navy yard on Sunday afternoon at 3 o'clock.

HON. GUY A. HAM TO BE SPEAKER MONDAY EVENING

WILL DELIVER ADDRESS IN PIERCE HALL UNDER THE AUSPICES OF THE YOUNG REPUBLICAN CLUB.

At a meeting of the officers and the executive committee of the Young Republican Club, E. Curtis Matthews Jr., president of the club, presiding, it was voted to hold a rally on Monday evening at Pierce Hall. The club, which is composed largely of the younger members of the republican party in Portsmouth, are enthusiastic over the political situation in the present campaign and plan to make the rally one of the biggest and most successful meetings of the political season.

Through the efforts of one of the members of the club the services of the Hon. Guy A. Ham of Boston, has been secured as the speaker of the evening. Mr. Ham is a former assistant United States district attorney and he is known throughout New England as one of the best of the political speakers in either party. Mr. Ham is to speak on the questions of the day from a national standpoint and on these subjects he is a recognized authority, not only in Boston but in all sections of the country. The Young Republican Club members feel gratified at being able to present Mr. Ham to Portsmouth for those who remember him in his previous visits to the city know his value as a public speaker. He had been slated to address a meeting in Boston on that evening but through the influence of one of the members of the club he was persuaded to cancel his Boston engagement and come to Portsmouth.

"FLESH AND BLOOD" CAMPAIGN AT THE SALVATION ARMY

The local Salvation Army commences a series of special meetings this Saturday continuing for the next sixteen days with special speakers and special music at every meeting. The meetings will commence each night at 8 o'clock with additional meetings on Sundays at 11 a. m., 3.15 and 7.30 p. m.

This Saturday and Sunday, Mr. A. C. Paradee of the M. B. Church, Hyde Park, Mass., will be the speaker at each service.

The speakers for next week, commencing Monday night, are as follows: Rev. P. W. Caswell, Captain Lawrence, Adjt. Lindstrom of Dover, Rev. P. J. Scott, Bishop Arnold of Rochester. The following week Rev. W. P. Stanley and W. M. Forgrave and other local pastors will speak.

The meetings are being well attended and a goodly number of conversions have already been recorded, and now with an extra effort, the local Salvationists are anticipating some real stirring times.

One Who Shows No Favor.

A merciless judge is Father Time. Before him the weak and the wanting go to the wall. Only the truth can stand. For years the following statement from a Portsmouth resident has withstood this sternest of all tests.

G. S. Chandler, distributor, 15 Franklin St., Portsmouth, says: "About a year ago I suffered from a severe attack of kidney trouble. I do a great deal of walking and am, therefore, subject to this complaint. Kidney weakness also interfered with my work. In fact, at one time I was forced to quit on account of it. One box of Doan's Kidney Pills, procured at Phillips' Pharmacy, absolutely cured me of the trouble and ever since then, I haven't had the slightest return of it." (Statement given July 13, 1905).

On October 20, 1916, Mr. Chandler said: "Doan's Kidney Pills gave me excellent results and I have had no occasion to use them since, although that was ten years ago!"

Mrs. Willow Regent

Rochester, Oct. 28.—At the closing session of the 15th annual conference of the New Hampshire Chapter, D. A. R., in the Church of the Unity yesterday, Mrs. Willow of Concord was elected regent and Mrs. Emma Loney Barrett of Charenton vice regent. The conference appropriated \$25 for Corinthian hall at Washington.

Demers Found Senseless

Manchester, Oct. 28.—Louis Demers of 418 Dix street was found unconscious in the rear of 37 Lake avenue yesterday.

He was humbled with cold, had severe abrasions about the head, and bruises upon the side and back, with accompanying pain that indicated broken ribs and possibly internal injuries.

He could give no coherent account of how he came to be in such a condition. The circumstances indicate he may have met with foul play.

Manchester Girl Elopes

Manchester, Oct. 28.—A brief note to her brother, saying that she was married to Elmer C. Farish of San Francisco and had left to live in Los Angeles was the way Mary V. McCutcheon, of 706 North River road, took of telling of her elopement to Bellows Falls, Vt., last Wednesday.

The ceremony was performed by Rev. George Chaplin of Saxtons River. The bride is the daughter of Mr. and Mrs. Ephraim McCutcheon of Alberte, Canada. She and Mr. Farish met in this city several years ago. When Mr. Farish went three years

Records of hundreds of medal winners prove that our system of trapshooting positively increases averages from 5% to 15% within a few months, and makes dependable high scores out of unsteady shooters. The 1916 A. A. T. A. Preliminary and the Amateur Championships were all won by A. A. T. A. Medal Shooters.

Why not along as an 80 per center when you can get and stay in the 90% class?

WILL HAVE CHARGE OF WORCESTER ELECTRIC COMPANY

The many friends of Mr. and Mrs. George Alexander will learn with regret that they are leaving Portsmouth today and will make their home at Worcester, Mass., where Mr. Alexander has accepted the position as chief engineer of the Worcester Electric company. For the past year he has been chief engineer at the Kittery Point power station of the Atlantic Shore Railway, which position he resigned, completing his work on Friday afternoon.

Mr. and Mrs. Alexander have been residing in Portsmouth for some time he having first come here to take charge of the power plant of the proposed munitions plant at Freeman's Point. When the business of the munitions factory was transferred from Portsmouth to New York Mr. Alexander was offered the position as engineer of the railway company which he accepted.

It is, that more people do not realize the true economy of having footwear mended by experts. Why suffer needlessly with stiff new shoes that hurt when you can have your comfortable old ones made to look like new and to give you good service for a long time. If you bring them to us for work in shoe repairing?

Give our careful work in this line a fair trial. We get all orders out promptly.

**\$75,000 A DAY
POURING INTO
ARROSTOOK CO.**

**BANNER YEAR FOR POTATO
GROWERS IN NORTHERN
MAINE.**

Houlton, Me., Oct. 27.—Golden days have come to Arroostook county. A steady stream of money, \$75,000 a day, is pouring into the county because potatoes are bringing from \$3.75 to \$4 a barrel, the highest price in the history of the industry in this state. Farmers are joyous. Everybody has plenty of money. Old debts that have stood for years, mortgages which have put lines of worry in men's faces, and all sorts of obligations are being wiped out, and many bank accounts are growing rapidly.

The average price of potatoes in Arroostook this time of year is from \$1.75 to \$2 a barrel. This year by selling from the field, the farmer is saving the cost of storing, insurance, handling and shrinkage. He figures that \$3.75 now is as good as \$4.50 in January. It is estimated that about 25 per cent of the crop has been shipped. The yield is about 80 per cent of normal.

Bank cashiers say they never had so much money. As a rule, at this time of year, they have to borrow to meet the farmers' demands, especially when the crops are stored. This year they have more money than they know what to do with.

Storehouses are filled to overflowing as many of the farmers expect to get \$5 a barrel before spring. Planters already are ploughing, and next year's crop will probably be a banner one. Shipments are active.

DR HYDE SPEAKER AT HUGHES RALLY AT DARTMOUTH

EAST KINGSTON MAN TALKS
ABOUT DEMOCRATIC MEXI-
CAN POLICIES AS SEEN BY
PERSONAL EXPERIENCE

Hanover, Oct. 27.—The first Hughes rally of the season was featured by Dr. O. B. Hyde of East Kingston, who told of his intimate relations with Huerta, Madero and Villa in his 25 years of medical practice in Mexico. Dr. Hyde has had many opportunities to see the inside workings of the various revolutions that have swept Mexico and he spoke of his personal experiences and observations of conditions in the ill-fated country.

Beginning with the fall of Diaz and the death of Madero, Dr. Hyde told how unwise and ineffectual our dealings with the Mexican leaders had been, stating that we had been since the Vera Cruz affair in a state of war with our southern neighbor. He said Gen. Huerta was the natural leader and should have been recognized as such and gave a brief sketch of Villa's personality and our dealings with him.

He closed with a denunciation of Carranza and an appeal for a different Mexican policy, designed to prevent the loss of American lives.

Dr. W. Cough, for six years the floor leader of the New Hampshire House, then spoke on the old question of the tariff and attacked the Democratic administration for extravagance.

The rally was held in College Commons.

NO STOMACH PAIN, GAS, INDIGESTION, IN FIVE MINUTES

"Pape's Diapepsin" is the only
real stomach regulator
known.

"Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that just that—makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment "Pape's Diapepsin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapepsin will give you a hundred dollars' worth of satisfaction or your druggist hands you your money back.

It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach regulator in the world.

LINER CARRIES CRACK GUNNERS TO BAG U-BOATS

Boston, Oct. 27.—Longshoremen at pier 43, Hoose Tunnel docks, Charles town, stood pop-eyed this morning as the big Leyland liner, Anglian, from Liverpool, backed into the pier. Hawser lines were tossed, dropped and noticed to the pier then snaked their way into the water with a splash. The deck attendants continued to stare at the boat's stern.

Then there was a scramble and resumption of business as ropes were again tossed, caught, hawsers hauled in and thrown about shipstanks. Then the steamship docked and a crowd gathered about the pier to stare where the longshoremen had stared before.

What they saw was a business-like 4.10-inch gun mounted on a swivel base at the ship's stern deck. Beside it stood two British sailors with severe looks. They were Robert Button and Charles Geduld of dear old Lannon, crack gunners from His Majesty the King's navy. They were shipped to train the gun on enemy submarines should the need arise.

As it was the trip passed without incident, other than a little target practice leaving Liverpool, that caused gaps of astonishment from the passengers and crew. Button, the gunner, has seen action and lots of it during the present war. He is a broad-shouldered Englishman with a haccent, and a youthful air. He was in the battle of Jutland. He was also present when the Germans made their raid on Scarborough. Indeed, he was on one of the English man-of-war that chased the German fleet. He manned a gun and says, "It peppered 'em all right."

Thousands of letters, each containing ten cents, are pouring into the Minneapolis postoffice daily from women in various parts of the country who have joined an endless chain scheme promoted by the so-called National Brokerage Exchange. Quite a number of local people fell for the scheme and sent on their dimes.

Federal agents are searching for officers of the "exchange," who are wanted for using the mails to defraud. A room in a business block there to which all the letters are addressed, was suddenly vacated three weeks ago, the authorities say.

To every woman who would send ten cents in silver and write five friends urging them to join the chain the "exchange" promised a "new 1917 model petticoat."

"The volume of mail for the 'exchange' is rapidly growing," said Postmaster E. A. Purdy, "and today we received 25,000 letters, enclosing 25,000 dimes. Thousands of letters have been returned to the writers, but a large majority carry no return marks and as a result the dead letter office is becoming clogged. Other mail channels of the office are choked daily by the influx of mail from the 'exchange'."

The letter, one of which was received by a Portsmouth girl yesterday, reads:

"To introduce our ready to wear goods in the least possible time, we will give to anyone complying with the conditions stated one 1917 model silk petticoat which retails at \$4.50. Give color and size wanted."

"Make five copies of this and send to five friends, then mail the names and addresses to the National Mail Order Brokerage Exchange, 520 Olive building, Minneapolis, Minnesota, with ten cents in silver and receive the silk petticoat without further expense."

"This offer is good for anyone complying with the request. This must be written on the next day after you receive the letter. Size means length of skirt."

CHECK WAS WORTHLESS

Former Navy Man Had No
Money at Atlanta and
Falls Into Hands of
Police.

On complaint of a Market street business man, a former member of the crew of one of the ships at the Portsmouth navy yard was arrested on Friday and charged with obtaining money under false pretenses.

He purchased goods amounting to \$10 and gave a check for the same on a bank in Atlanta, Ga. The check was returned owing to no funds in the name of the sailor, and the case then went into the hands of the police.

Another business man on the same street came forward with the \$10 and the other declined to proceed further with the case and the sailor was released.

RIFLE CLUB
ORGANIZEDYoung Men of Christ Church
Take Preliminary Steps on
Friday Evening.

A meeting was held in Christ church on Friday evening and a rifle club to be known as "The Rifle Club of Portsmouth" was organized. About sixteen young men were present. The cellar of the church was offered and accepted to be used as an indoor range and arrangements made to find a suitable outdoor range in the Spring.

The rifles are furnished by the National Rifle Association. Most of the expense is the charge, for packing and shipping. As members of this club all the young men will be eligible to enter the state and national meets for which there are medals of gold, silver and bronze, and a few of the matches large cash prizes are offered.

There are unlimited advantages to this club which will teach men to be very valuable in time of war. Then there is always the satisfaction of knowing that we know how to shoot and handle a service rifle even though we do not become experts at it. This club is not a denominational club but is open to every young man in the city and all of the older men who care to join.

The next meeting will be held in the church at 8 o'clock Friday evening, November 3. Anyone interested is invited to be present.

ADVENT CHURCH.

The Woman's Home and Foreign Missionary Society of the Advent church will meet with Mrs. A. C. Anderson, 617 Myrtle avenue, on Monday afternoon and evening, Oct. 30. Members of this church and parish are cordially invited.
